Specifications

	Low Beam	High Beam	Parking Lights
Input power:	33 W	33 W	2 x 1.75 W
Input current:	2.45 A	2.45 A	2 x 0.13 A
Total Luminous flux of LEDs:	3985 Lm (typ.)	3985 Lm (typ.)	2x 140 Lm (typ.)
Color temperature:	4500K	4500K	4000K

High beam function: Low beam is active together with high beam.

Europe Road-Use Approval

Low Beam: ECE 113 approval (symmetrical passing beam) no.: 01 1816

High Beam: ECE 113 (driving beam) approval no.: 01 1815

Angel Eye Rings: ECE 50 (front position lamps) approval no.: 50R 001816, 50R 001815

The package contains

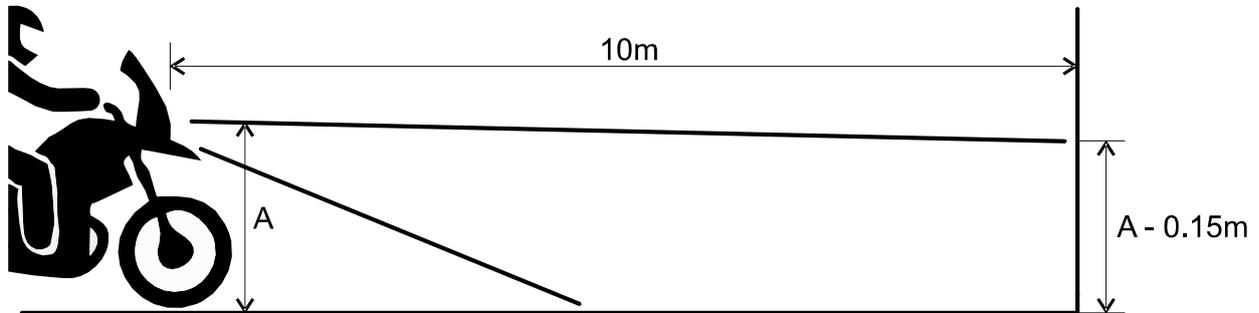

1x Low Beam Lamp XH1-LB-V5.2

1x High Beam Lamp XH1-LB-V5.2

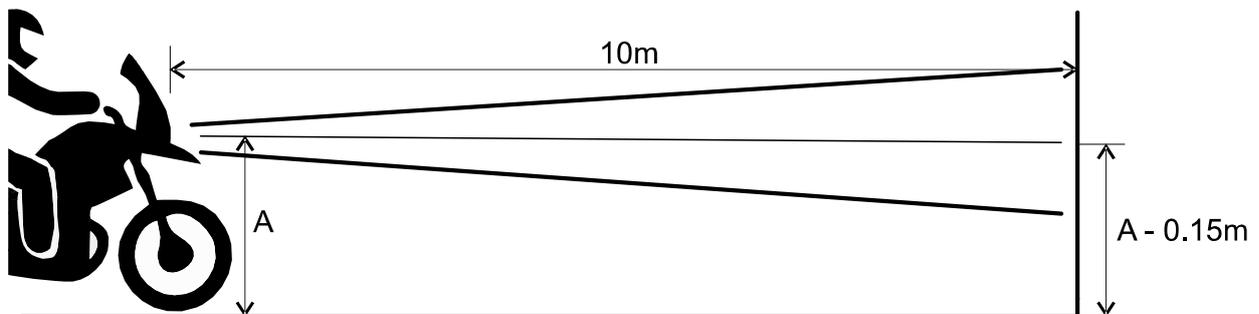

Installation

Mount the headlight and connect connector to the original socket. Adjust both lights against the wall according to the pictures below.

Low beam:

High beam:

Warranty

Product is covered by 2 years Limited Warranty (from the date of purchase). Limited Warranty covers any defects in material or manufacturing defects under normal use and maintenance. **We reserve the right not to accept the claim in the case of mechanical damage that could be related to the defect of the product or if the product was disassembled by unauthorized service.**

This limited warranty also does not cover any problem that is caused by conditions, malfunctions or damage not resulting from defects in material or workmanship.

During warranty period, we will repair or replace defective product or defective parts. To obtain warranty service, you must first contact us to determine the problem and the most appropriate solution for you.

Contact e-mail is: info@lskelectronics.com

Safety notice

The lights should be installed by specialized garage or service. Inappropriate mounting or electrical connection may result in damaging this or any other electrical devices in the motorcycle.

Headlights meet requirements for using on public roads in EU. If you are in a country outside the EU, make sure that EU-approved headlight can be used in your country. If not, you are using headlights at your own risk and responsibility.

Recycling

Retired device should be given to places specified for retrieving electrical garbage. Package should be thrown into a specific container for recycled garbage.

Device meets RoHS Directive.
